501 Section 4: Biological Fuels, Energy and Order

Student Evaluation in Section 4:

Daily problems/homework will be given to the student the day of lecture and will be returned the next lecture day (exceptions being the days that there are exams the next day). This daily problems/homework will be graded and will makeup 40% of the students grade (2 pts per lecture). The remaining evaluation (60%) will be via exam which is going to be administered as two exams of 1-1.5 hrs each. For these exams, 3 pts will be assigned per lecture (5pts if no quiz was given for that lecture; e.g., lectures 11 and 21).
